September 2025

Dear Parent/Guardian:

In the spring, your student participated in the New Jersey Student Learning Assessments (NJSLA) administration to measure their academic performance in English language arts (ELA), mathematics, and science as defined in the New Jersey Student Learning Standards (NJSLS). Evaluating the results from statewide testing can be a helpful tool in measuring your student's success in school. For decades, New Jersey has used statewide assessments as a valuable instrument for assessing our students' annual progress. This year's assessment results are no different, as they represent important data that will support the district's ability to monitor instruction and learning growth as we return to a typical learning experience. It is important to remember that the data provided by this standardized assessment is a singular piece of the "data puzzle" that our educators use to evaluate, monitor, and adjust learning targets and instructional strategies.

Included with this letter, you will find one report for each content area in which your student tested last spring. The reports illustrate how your student performed on each test. There are also charts and graphics that show you how your student performed in relation to the New Jersey Student Learning Standards and how your student's performance compares to other students in their school, district, and the state.

Your student's ISRs are also available in the [New Jersey Parent Portal](#). The online portal includes your student's scale score, level of performance, and a video explanation of the score report. The Parent Score Interpretation Guide is also available in those five languages on the portal. The portal allows you to track your student's scores from year to year, beginning with spring 2019. If this is the first time you will be accessing the online portal, you must create an account using the unique claim code that is located on your student's paper ISR. Additional resources to help support your student can be found on the [New Jersey Assessments Resource Center](#) under Parent Resources. Additional resources, such as the [Digital Item Library](#) and [New Meridian Item Library](#), are also available. To access the links in this letter, please visit [www.aes.k12.nj.us](http://www.aes.k12.nj.us) >> Resources >> NJSLA Information. Should you have any questions or want to discuss your son/daughter's learning progress, please feel free to contact your son/daughter's teacher(s), school counselor, case manager, or me directly.

Sincerely,

Charles Seipp, Ed. D.  
Superintendent
