

Travel Guidance from the CDC Website

Fully vaccinated travelers are less likely to get and spread SARS-CoV-2 and can now travel at low risk to themselves within the United States. International travelers need to pay close attention to the [situation at their international destinations](#) before traveling due to the spread of new variants and because the burden of COVID-19 varies globally.

[Wearing a mask over your nose and mouth is required](#) on planes, buses, trains, and other forms of public transportation traveling into, within, or out of the United States and while indoors at U.S. transportation hubs such as airports and stations. Travelers are not required to wear a mask in outdoor areas of a conveyance (like on open deck areas of a ferry or the uncovered top deck of a bus).

Domestic travel (within the United States or to a U.S. territory)

- Fully vaccinated travelers do not need to get a SARS-CoV-2 viral test before or after domestic travel, unless testing is required by local, state, or territorial health authorities.
- Fully vaccinated travelers do not need to self-quarantine following domestic travel.
- For more information, see [Domestic Travel During COVID-19](#).

For UNVACCINATED individuals - After you travel:

- Get tested with a [viral test](#) 3-5 days after travel **AND** stay home and self-quarantine for a full 7 days after travel.
 - Even if you test negative, stay home and self-quarantine for the full 7 days.
 - If your test is positive, [isolate](#) yourself to protect others from getting infected.
- If you don't get tested, stay home and self-quarantine for 10 days after travel.
- Avoid being around people who are at [increased risk for severe illness](#) for 14 days, whether you get tested or not.
- Self-monitor for COVID-19 symptoms; isolate and get tested if you develop symptoms.
- Follow all [state and local](#) recommendations or requirements.

International travel

- Fully vaccinated travelers do not need to get tested before leaving the United States unless required by their destination.
- Fully vaccinated air travelers coming to the United States from abroad, including U.S. citizens, are still [required](#) to have a negative SARS-CoV-2 viral test result or documentation of recovery from COVID-19 before they board a flight to the United States.
- International travelers arriving in the United States are still recommended to get a SARS-CoV-2 viral test 3-5 days after travel regardless of vaccination status.
- Fully vaccinated travelers do not need to self-quarantine in the United States following international travel.
- For more information, see [International Travel During COVID-19](#).

For UNVACCINATED individuals: Before you arrive in the United States:

- All air passengers coming to the United States, including U.S. citizens and fully vaccinated people, [are required](#) to have a negative COVID-19 viral test result no more than 3 days before travel or documentation of recovery from COVID-19 in the past 3 months before they board a flight to the United States.
- After you travel:
 - Get tested with a [viral test](#) 3-5 days after travel **AND** stay home and self-quarantine for a full 7 days after travel.
 - Even if you test negative, stay home and self-quarantine for the full 7 days.
 - If your test is positive, [isolate](#) yourself to protect others from getting infected.
 - If you don't get tested, stay home and self-quarantine for 10 days after travel.
 - Avoid being around people who are at [increased risk for severe illness](#) for 14 days, whether you get tested or not.
 - Self-monitor for COVID-19 symptoms; isolate and get tested if you develop symptoms.
 - Follow all [state and local](#) recommendations or requirements.
