19 March 2021

Dear Parents, Guardians, and Staff,

The previously communicated guidelines surrounding travel quarantine have been recently updated prompting a change in our protocols. Please read the following information carefully.

As per the Warren County Health Department, under the travel advisory **non-essential travel is discouraged**. However, individuals returning to New Jersey after travel from states that do not include the immediate region (New York, Connecticut, Pennsylvania, and Delaware) **are expected to self-quarantine for 10 days**. Because of the high number of case counts across all states, there is an increased risk of spread of COVID-19 upon return from any travel. This includes travel by train, bus, car, plane, and any other method of transportation. As per the current guidance, even if a person has received the COVID-19 vaccine, quarantining after travel remains expected. Quarantining for 10 days for children after travel, not including travel to New York, Connecticut, Pennsylvania, and/or Delaware, is required prior to returning to in-person school. If you plan to travel, please let our school nurses know so that we can adequately plan for your child's virtual learning due to travel limitations and mandatory quarantine guidelines.

If you have any questions, please reach out to us. As always, we aim to keep you informed and will deliver new information as it becomes available.

Have a wonderful weekend!
